

What happens if I miss a class?

We want you and your dog to get as much as you can out of your experience with us, so if you have to miss class during your session, we'll be happy to help you schedule to attend a make up for a missed Puppy or Intermediate class.

For puppy class make ups, please call us for dates and times available for the week/s that you missed. In most cases, you will be able to attend your make up class with your puppy.

For Intermediate class make ups, in most cases you'll be attending without your dog. Reason being that each class has a dynamic all it's own and adding additional dog/s to an existing Intermediate class environment can be challenging and disruptive for all, including your dog. Students who have attended Intermediate make up sessions without their dogs, have consistently commented that it was helpful to be there to observe and learn without being distracted by their own dog!

Specialty classes such as Advanced and Greyhounds Only, do not have a make up class option.

Regardless of the class you're in, if you miss a week, you will still receive your weekly Training Guide so you can stay current with the lessons!

Please give us a call at 248.588.3222, to schedule your make up session, and please let us know if you have any questions.
